

Programme des cours de renforcement des formations doctorale de la Faculté de Technologie

Automation and Telecommunication

A- List of courses in Automatics

- Advanced controls and intelligent systems 30 hours
- Optimization techniques
- Image processing techniques.
- Advanced methods in deep learning
- 5G technology and optimization approaches.

A- List of courses in Telecommunication

- Image processing and artificial vision (Deep-Learning)
- 5G technologies and optimization techniques
- Image processing techniques.
- Advanced methods in deep learning
- 5G technology and optimization approaches.
