

Programme des cours de renforcement des formations doctorale de la Faculté de Technologie

Mechanical engineering

Isotropic and anisotropic hyperelasticity (VH 16h00)

Modeling and numerical simulation in the field of materials (VH 16h00)

Introduction to CFD (VH 16h00)

Modeling of thermoconvective flows (VH 16h00)

Biomaterials and their applications (VH 16h00)

Ternary diagrams (VH 16h00)
