

University A.Mira of Bejaïa, 17 to 19 November 2025

### Honorary President :

- Pr. Abdelkrim BENIAÏCHE,  
Rector of A. Mira University -  
Bejaia, Algeria

### Honorary Guest :

- Dr. Sofiane AOUDIA, Dean of  
the Faculty of Exact Sciences, A.  
Mira Algeria

### President of the Conference :

- Pr. BECHIR née ZEROUATI  
Halima, University A. Mira –  
Bejaia

### President of the organization Committee :

- Dr. TABTI Hadjila, University  
A. Mira – Bejaia

### Vice President of the organization Committee :

- Dr. Hacène Gharout, University  
A. Mira – Bejaia

### Registration fees (participants):

- PhD students outside LMA :  
6 000 DA
- Teachers - Researchers :  
15 000 DA
- Company representatives :  
25 000 DA

## CALL FOR SUBMISSIONS

### Conference objectives and topics of interest :

The second edition of the international conference "Statistics and Advanced Analysis : Domains of Interaction and Applications: SAADIA 2" is dedicated to our esteemed colleague, Prof. TAS Saadia, whose untimely passing on this sorrowful day, May 9, 2021, has profoundly impacted us all.

The objective of this edition, which succeeds an inaugural event already dedicated to Prof. TAS Saadia, is to perpetuate her passion for mathematics. The fundamental vision, initially conceptualized by Prof. TAS Saadia, endeavors to cultivate collaboration and interdisciplinary exchange across a spectrum of mathematical disciplines. It is with this forward-looking perspective, and in profound respect for her memory, that future editions of the SAADIA conference will strive to carry on her legacy of academic excellence and collaborative spirit.

The conference will form from the following topics:

1- **Probability-Statistic** :Stochastic processes, Nonparametric statistics, Statistic simulation.

2- **Analysis** : Fonctional analysis, Pde, Ode, Numerical analysis.

3-**Algebra and Geometry**.

4- **Interactions and Applications**.

### Contribution :

Contributions will take the form of plenary lectures, oral presentations, posters, roundtable discussions, and workshops.

### Submissions :

Submissions can only be made electronically via :

[saadia@univ-bejaia.dz](mailto:saadia@univ-bejaia.dz)

### Important Dates :

- Registration: from April 13 to May 25, 2025
- Paper submission: from May 03 to June 05, 2025
- Notification of acceptance: October 01, 2025
- Conference: 17 - 19November, 2025

### Conference venue :

Béjaïa, also referred to as Bgayet in Kabyle (Berber), is a city located in the heart of the Mediterranean region of Algeria. The city's former French name, Bougie, is derived from the scientific and scholarly significance it held in antiquity, particularly during Roman times when it was known as Saldae. In Libyco-Berber, the city was referred to as Vaga, a term derived from the local vegetation, specifically the presence of brambles. It is also the capital of the wilaya (department) of the same name. The inhabitants of Béjaïa are known as Bougiotes or Bédjaouis. With a population of 210,000 inhabitants in 2006, Béjaïa is the largest city in Kabylia.

### Conference venue :

**Conference venue** : University of Béjaïa, Bejaia (06000), Algérie.

**Address** : Laboratory of Applied Mathematics, Exact Sciences Faculty - University A. Mira - Bejaia
