- 🚧 **Topic 4: Geological and hydrogeological engineering**

CALL FOR PAPERS

Participants are invited for consideration for the presentation at SNMMPSE'25. These should be written in English, (in docx or pdf format, minimum 02 pages; maximum 04 pages), Firstly, a short abstract (max. 350 words) should be submitted online (using [Forms submission](#) system) to assess the quality of your work using the [SNMMPES'25 Abstract Template](#). After acceptance of your abstract, you will be invited to submit (optional) an extended version of your abstract using the [SNMMPES'25 Paper Template](#). The authors are requested to submit their extended abstracts online for presentation during SNMMPSE'25 before **1st July 2025**. The abstract guideline is on the website. Based on the content the abstract will be considered for oral or poster presentations.

PRESIDENT'S WELCOME

Dear Colleagues and Distinguished Guests,
Welcome to the 1st National Seminar on Mining, Minerals Processing, and Environmental Sustainability (SNMMPSE'25) at the University of Bejaia. This event brings together leading experts, industry leaders, and students from across Algeria to share innovative ideas and solutions for advancing mining engineering with a focus on environmental stewardship. The seminar aims to bridge academia and industry by fostering interdisciplinary collaboration, addressing real-world challenges in sustainable mining, advanced mineral processing, environmental impact management, and geotechnical innovations. All participants are encouraged to engage actively in discussions and networking opportunities to help drive progress in the field.

IMPORTANT DATES

Abstract Submission Deadline	: 1 st July 2025
Abstract Acceptance Notification	: 30 th July 2025
Full paper Submission Deadline	: 15 th August 2025
Full paper Acceptance Notification	: 1 st September 2025
Final Full paper Submission	: 20 th September 2025
SNMMPSE dates	: 29-30 October 2025

OBJECTIVE

The 1st National Seminar on Mining, Minerals Processing, and Environmental Sustainability (SNMMPSE'25), hosted by the University of Bejaia Mining and Geology Department on October 29-30, 2025, aims to unite experts, researchers, industry professionals, and students. Its core objectives are to foster collaboration, promote environmentally sustainable mining practices, and bridge the gap between academia and industry. The seminar will focus on driving innovation in mining technologies, enhancing resource management, addressing regional challenges specific to Algeria and North Africa, developing future leaders, and showcasing successful, economically viable best practices in sustainable mining.
